Radeon™ HD 5570

UP TO 1GB [128-bit] DDR3 Graphics Card

XFX Part Numbers:
HD-557X-ZNF(*)
HD-557X-ZHF(*)
HD-557X-YNF(*)

Bus
PCI-E 2.1
Profile
Standard
Available Outputs
DisplayPort
HDMI
DVI
VGA

Performance

IT CONFIGURES.

Introducing the XFX ATI Radeon™ HD 5570. Available in multiple configurations to meet your exact needs. Enjoy your favorite movies in full Blu-ray quality at 1080p with true HD audio. ATI Stream technology and ATI Eyefinity technology maximize your multi-tasking capabilities and Windows® 7 support ensures the optimal home theater experience. The XFX ATI Radeon™ HD 5570. Offering the ultimate in flexibility and affordability, now you can have your computer and game on it, too.

- 2nd Generation TeraScale Graphics Engine
- 40 nm Process Technology
- ATI Eyefinity Technology
- ATI Stream Technology
- Accelerated Video Transcoding
- ATI PowerPlay Technology
- ATI Avivo Technology
- Design for DirectCompute 5.0 and OpenCL
- Built-in DisplayPort and HDMI Outputs
- Microsoft Windows 7® Support
- Microsoft DirectX 11 Support
- OpenGL 3.2 Support

XFX play hard.

2nd Generation TeraScale Graphics Engine

The new 2nd TeraScale graphics engine dramatically increases the processing power over the previous generations. Feel the power of more than 2 teraFLOPS plowing through the most demanding games.

ATI Stream Technology

A set of advanced hardware and software technologies that enable ATI graphics cards, working with the system's CPU to accelerate many applications beyond just graphics. This enables better balanced platforms capable of running demanding computing tasks faster than ever.

ATI Eyefinity Technology

Enjoy the ultimate immersive gaming experience with innovative "wrap around" multi-display capabilities. Run up to three displays from a single graphics card and expand your gaming field of view across all displays. DisplayPort connection required for third panel. (Not available for HD-557X-ZHF(*))

HDMI

HDMI is a new standard that combines digital video and audio in a single consumer-friendly connector. HDMI delivers a clear clean image at any window size, including full-screen high-definition resolutions up to 1080p. The combination of high-definition video and high-definition audio from HDMI delivers unprecedented picture clarity, smooth video, accurate color, and precise image scaling for all video content to turn a PC into a high-end home theater.

Display Port

DisplayPort is designed to be the future-ready, scalable solution for high performance digital display connectivity. It enables the highest resolutions, the fastest refresh rates and deepest color depths over standard cables.(Not available for HD-557X-ZHF(*))

Double Lifetime Protection

Our exclusive Double Lifetime Protection guarantees the quality and dependability of our card for both you and the second owner.

*Valid for North America only
